Mr. Stone presented

According to the article I read we have not yet chosen a site for the Convention Center. Now, I don't like to rehash old stories of 1972 and I know the City Council is no jewel but the Mayor chose the same site that we choose and for the very same reasons and that is because it is a much smaller site than the site chosen back in 1972.

Like most Members of Council, I am not happy about the size and I impressed that on everyone that would listen—but I am of the opinion that a smaller Convention Center is better than none at all.

My request is that the Mayor please forward to us the legislation, as soon as possible, so we can vote it either up or down. The way it is now right now, hanging in mid-air with no one doing anything is not the answer. God, we need a Convention Center and we need it badly. I know it is not quite the size we wanted but, again, at the same time it is better than nothing. So, please, Mr. Chairman, ask the Mayor to forward the legislation so we can vote on it.

Mr. Mason:

I'll be only too happy to do that, Mr. DePasquale. I'd like to make a comment on the insignificance of such phraseology and terminology that has come out of the administrative offices. This thing has been bounced back and forth like a rubber ball and I have come to the position that I fought for it all along and I have wondered how it would end as far as the Mayor's position. You and I well remem-

ber that this site had been located on the Southside and now he has set up a committee. We wanted the site and it was there all they did was repeat what had been done and reduce the size.

I don't know what Council thinks as a body but I have to be clear — let's get this thing started at some given point so we can get it off the ground and there will be ample opportunity to make additions to it. Architecturally, if the structure proves to be too small a size we can add to it at a minimum cost.

Mr. DePasquale:

Well, the article really behooved me. I realize it was meant well. By the way, the article called for another public hearing and I honestly can't see what the purpose of another public hearing could serve. I think we should avoid it, if it is at all possible.

Mr. DePasquale moved

That Miss Ballinger be excused for absence from this meeting.

Which motion prevailed.

Mr. Caliguiri moved

That the Minutes of Council of Monday, November 18, 1974, be approved.

Which motion prevailed.

And on motion of Mr. Caliguiri,

Council adjourned.

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all.

Mr. Mason:

The first order of business is the presentation of the Budget by the Honorable Peter Francis Flaherty. Will Mr.

Kamyk and Mr. Coyne escort the Mayor to the podium.

The Honorable Peter Francis Flaherty.

Mayor Flaherty:

Thank you, Mr. President. Members of Council, City Controller, Mr. McGrady, Directors, Ladies and gentlemen, I am delighted to see so many of you waded through the snow to get here for the annual State of the City message.

A REPORT TO THE PEOPLE

In many ways, the 1975 operating budget I am presenting today reflects the harsh economic realities of our times and the determined efforts of this Administration to deal with them in an effective and responsible manner.

Inflation continues to erode the nation's economy and no one can escape its impact.

In preparing this budget we encountered problems similar to those confronting Pittsburgh wage-earners and home-makers today.

Just as they are trying desperately to adjust family budgets and stretch their dollars to meet escalating living costs so too are we in City government deeply concerned with the effect of inflation on the city budget.

It is taking its toll in many ways on City revenues—in utility rate increases, in gas and oil, chemicals, equipment and supplies.

Every family has been hit hard by sharp increases in utility bills. So also has City government.

For example in 1974, the City appropri-

ated \$2.6 million for electricity costs. Next year we are appropriating \$3.6 million—an increase of \$1 million. And, if Duquesne Light is granted its full request for 28½ percent increase in 1975 it will add another \$500,000 to our bill—and that will be for only part of 1975. Most of the 1975 increase will be for street lighting—approximately \$650,000. This past year the City completed its city-wide installation of new street lights—1500 in the neighborhoods and 500 Downtown. While our kilowatt hour usage for these new lights increased only five percent our street lighting bill soared 51 percent.

Blue Cross and Bell Telephone have recently requested large rate increases which will also affect our 1975 budget. The City will budget \$2.6 million for Blue Cross and Blue Shield in 1975. If the Blue Cross increase is granted it will cost the City approximately \$650,000 more to provide Blue Cross benefits next year.

We will strongly oppose these rate increases on behalf of the City and on behalf of the residents as well.

A year ago we could buy new police cars for \$2,600. This year we are paying \$3,200 and for smaller cars.

The cost of fire pumbers is up from \$43,000 to \$61,000.

To keep the City's automotive equipment rolling for a year requires a million and a half gallons of gasoline. That cost has sky rocketed 150 percent—in 1972 our fuel costs were \$220,000 and in 1974 they were \$446,000 and our appropriation for 1975 is \$535,000.

The cost for refuse disposal will be up \$190,000 in 1975 and the contract for collecting the North Side's refuse will increase \$63,000 next year.

I could read off a laundry list of cost figures—all dramatizing the inescapable fact that inflation has become a costly factor in City budgeting.

Despite the impact of inflation we have been able to hold the line on taxes since 1970 and we will close 1974 with a \$12.9 million surplus.

And, despite substantial mandated and other increased costs in 1975—I am presenting a balanced budget requiring no tax increases.

This is the fifth consecutive year that we have held the line on taxes while continuing to improve municipal services.

In a period of high inflation, this could only be accomplished through significant improvements in the efficiency in government operations.

This past year this Administration has moved forward in almost every area of municipal services.

In its role as consumer advocate, the City opposed and took legal action in rate increases sought by practically every utility serving this community, including Equitable Gas, Duquesne Light, Western Pennsylvania Water, Allegheny Steam Heating and Bell Telephone.

Pittsburgh has been fortunate so far during the national economic recession in that unemployment has not been rising as dramatically here as in other parts of the country.

The City, however, is prepared to meet the challenges of any further deterioration in employment. Our Public Employment Programs, which now provide jobs to over 400 unemployed city residents are being expanded with additional federal funds to create 200 new jobs.

The City has also received a grant of over \$7.4 million to provide job training programs and social services to Pittsburgh's unemployed. Through this grant the City will be providing both training and placement services to its residents.

Hopefully, the nation-wide coal strike will have only a temporary effect on the steel industry and full production will resume when a coal settlement is reached. I met recently with union and company officials of Jones and Laughlin Steel Corporation to discuss the plans of J&L on revitalization of its Pittsburgh Works and will continue to work with officials of labor and management in their efforts to revitalize the Pittsburgh Works.

Pittsburgh increased its housing output in 1974 in spite of record high interest rates and the Federal moratorium on housing programs.

This past year 487 housing units were built in the City compared to 202 units in 1973—an increase of 125 percent.

Gains were made in many other areas housing—

... The City has completed and filed with HUD an application to construct 195 housing units in Glen Hazel. This will be in addition to the Glen Hazel Hi-Rise which is expected to be ready for occupancy next May.

... The Urban Redevelopment Authority and City Council have approved 137 units of housing which soon will be under construction under the City's \$7.2 million Neighborhood Housing Program. This program launched in 1974, is expected to provide up to 700 units of new housing in the Hill District, Manchester, Garfield and Homewood.

... The City Planning Department approved over 1,263 units of new construction in 1974 and most of these units will be in construction next year.

... The City has created a city-wide Home Repair Loan Program to provide low interest, long-term loans to Pittsburgh home-owners for repairs and upgrading their homes. Up to 5,000 home-owners will be directly aided by the program which will create jobs and aid small businesses in the City.

... Tax abatement legislation is now in effect for rehabilitation and improvements on existing housing which grants a three year grace period on taxing home improvements.

This past year I proposed that the State provide enabling legislation for abatement of taxes for a three year period on new residential construction.

In a time of inflation and rising government costs, it is sometimes difficult to provide new programs and services. In some areas next year, however, we will be charting new ground.

The new Federal Community Development Block Grant program will provide some of the financial resources we need.

These funds, totaling \$16.4 million, will permit us to support, with public improvements, the private investment made by home-owners. We intend to provide for the demolition of dilapidated structures, expand our street tree planting, strengthen our Code Enforcement efforts and maintain public property in our neighborhoods. We also intend to provide supportive neighborhood capital improvements. We also have created a low-interest loan fund to help neighborhood businessmen improve their property.

Legislation authorizing an application for Community Block Grant funds is now before City Council. I urge that it receive high priority so that we may submit the application before the end of 1974.

When I first took office, I found a tremendous backlog of "deferred maintenance" of public facilities in our neighborhoods. I believe we have largely overcome that backlog and our neighborhood playgrounds, parks, streets, lighting and water lines are in better shape today than they have been in decades.

In order to continue these efforts, I am recommending a \$48 million Capital Improvement Program for 1975. Only \$12 million, or one-fourth of this amount, will have to be raised by local borrowing, and most of the remainder will come from Federal and State funding.

Included in this program will be:

... Over \$5 million for street improvements.

... Over \$1 million in bridge rehabilitation.

... \$600,000 for rebuilding two old fire stations.

... Nearly \$4 million in recreation improvements.

Over the past five years we have placed considerable emphasis on street maintenance and repair. As a result we have increased the number of miles of streets re-

paved or reconstructed from an annual average of 12 miles in the period of 1964-1968 to record totals of 30 miles in 1973 and 40 miles in 1974.

While refuse collections have improved significantly over the past five years, we are looking for better ways to dispose of our refuse in the future. In 1975, we will submit a formal solid waste disposal plan to the State which will involve the development of an innovative system that will dispose of all City refuse and convert it into electrical energy.

One out of every five city residents is over the age of 60. They are being hit extremely hard by inflation. It is important that we recognize their needs.

Between 1969 and 1974, the City increased its expenditures for programs for the elderly from \$50,000 to \$250,000. This past year the City operated 17 full-time senior citizen centers providing diversified programs for more than 2,000 elderly citizens participating on a regular basis. The new Allegheny Community Senior Citizens Center opened this past summer and two more are scheduled to open early next year.

Next year I am proposing the creation of a city-wide system of Senior Citizen Service Centers. We will use over \$1 million available through the new Community Block Grant program to modernize 15 existing buildings throughout the City for this purpose. We will apply for over \$1 million in federal funds under the Social Security Act and the Older American Act to operate these centers, providing recreational, educational, referral and meal services.

To further assist our elderly citizens, the Pittsburgh Housing Authority has expanded its Social Services Program to include all public housing communities for the elderly and opened eight dining rooms which serve some 800 meals per day.

And through a federal grant the Authority has placed 50 security guards in apartments for the elderly and installed a closed circuit TV monitoring system in the apartments to provide 24-hour a day security, seven days a week.

The City has received national recogni-

tion as one of the nation's safest cities. Between 1969 and 1974 the City's major crime rate was reduced by 33-1/3 percent.

Police manpower will be maintained at an optimum level of 1,500 officers and we expect to hire and train a group of police in 1975 to keep the force at that level. Pittsburgh has a ratio of over 3.1 policemen per thousand population—one of the highest ratings for City's of comparable size. In recent years, some 100 police who had been assigned to clerical duties were returned to street duty. They were replaced with civilians, many of them Vietnam veterans.

A particularly sensitive police problem over the years has been the handling of chronic alcoholics. Under a special federal grant, a Public Inebriate Program will be implemented to rehabilitate alcoholics.

As part of the City's continuing program to modernize its Fire Bureau, two fire stations are in the final stages of construction—in the Hill District and at 40th Street and Penn Avenue in Lawrenceville—and we are in the process of purchasing sites for two additional fire stations.

Overall, 111 firemen were sworn in this year to bring the Bureau up to its optimum strength. Pittsburgh has a ratio of two firemen per thousand population—comparable to or above most major cities in the country.

The City is also planning to improve all police and fire call box systems to provide quicker response to police and fire emergencies.

The City's two new ice-skating rinks located in Schenley and Southside Parks will open soon to provide a new and exciting dimension to the City's winter recreation program.

For the first time since 1954, two new swimming pools were opened in the City—in Sheraden and Allegheny Commons. A third will open this summer in Lawrenceville and design work is being completed on three more with construction scheduled for 1975.

To meet increased demands for tennis, the City built 13 new tennis courts this past

year and plans for 1975 include construction of 25 more courts—bringing the total in the City to 110.

New mercury vapor lighting was installed in 15 major ballfields this year and new lighting is planned in 1975 for other ballfields, courts and playgrounds to increase night time sports programming and activities.

During the past three years the City has initiated an \$11 million dollar TOPICS effort to improve the capacity and safety of our streets and intersections and the highway building program provides over \$32 million for arterial street improvements in the City over the next six years.

Last March I appointed a Convention Advisory Committee to recommend the most economic and feasible site for a Convention Center. The Committee of business leaders and public officials made sound recommendations and I have asked the State to move forward on this project.

The Urban Redevelopment Authority of Pittsburgh has sold industrial and commercial land valued at \$2.7 million which should create development investments in industrial-commercial transactions amounting to \$25 million. Associated with such developments will be an estimated 2,000 new or retained jobs.

The URA has presently under negotiations land sales in excess of \$13 million which should be completed in 1975. These sales should bring development investments of over \$19 million and add or save more than 300 jobs in the Pittsburgh area.

The St. Francis Medical-Complex Garage was opened this year providing 885 parking spaces to relieve some of the congestion and parking problems in the Lawrenceville-Bloomfield area. Doctors' offices and commercial-retail shops in the complex will be opened in 1975.

The Highland-Ellsworth lot in East Liberty was also opened, providing 110 parking spaces and a 34 space lot is scheduled for construction in the Mt. Washington-Shiloh Street area next year.

The Pittsburgh Model Cities Program, through its economic development pro-

gram is funding \$550,000 of the cost of a \$1.8 million shopping complex in the Hill District. The Kay's Boys Club, Paul Younger Center and Centre Avenue YMCA were completely renovated this year. These Model Cities projects cost \$700,000.

During the past year nearly \$4 million was allocated for improvements to the City's water system. It should be noted that despite increased labor and material costs, our water rates have not increased the past five years. I am proposing none for 1975 while other local water companies and the Allegheny County Sanitary Authority have indicated substantial rate increases for 1975.

Besides the impact of inflation, wage increases will also affect the 1975 Budget. All of our uniformed employees are covered for salary and fringes through 1975. In addition, 90 percent of our non-uniformed employees are covered by existing collective bargaining agreements for wages and fringe benefits through 1975. Less than 10 percent of our work force is not yet covered for 1975.

I am recommending a five percent salary increase for all employees not covered by collective bargaining agreements. These increases, together with the costs of mandated increases for police officers, firefighters and employees covered by collective bargaining contracts, will add over \$4.2 million to the budget in 1975.

Although we have managed a year-end surplus of \$12.9 million it will not be sufficient to provide the funds necessary to balance the 1975 budget.

Therefore, I am requesting that the Sinking Fund Commission take action to use \$500,000 from the Sinking Fund to retire debt and thereby relieve this burden from the 1975 budget requirements.

The budget I am presenting totals \$118,304,184.

It is a budget that will sustain the efficient government to which the people of Pittsburgh have become accustomed over the past five years.

It is a budget that will continue to give

the people a full measure of service for each tax dollar.

It is a budget that recommends no tax increase, and yet seeks to maintain and expand our services.

In these inflationary times, that's a mighty big task.

But that's the goal that this Administration has committed itself to in 1975 and with the continued cooperation and support of the people we will make it.

Mr. Mason:

We will allow three minutes for those who wish to retire and who do not want to stay for the conducting of our usual business.

The recessed meeting will come to order.

MOTIONS AND RESOLUTIONS

Mr. Lynch:

Mr. President, I would just like to make a statement. We will proceed with the Budget hearings starting Thursday or Friday of this week. We have a certain number of people scheduled.

Mr. Stone:

We can't start on Thursday, because there is the Community Development hearing.

Mr. Lynch:

I can start with some on Friday and Monday afternoon and Tuesday. I would like to make the announcement that I am preparing this, as you are aware and if there are any members of the public who would like to be heard, they should get their request in by December 10 so they can be properly scheduled.

Mr. Mason:

I think, considering one thing Mr. Lynch, we should coordinate our public hearings, but about which dates I am not sure. It is important if the public wants to be heard.

Mr. Lynch:

We have a lot of requests not in, which we usually hear from every year. The notice should be made and I am trying to make some public notice here. I want to make December 10 the deadline. I am reluctant to invite anyone, because when we invite, we have to invite everyone.

Mr. DePasquale moved

That Miss Ballinger be excused for absence from this meeting.

Which motion prevailed.

Mr. DePasquale moved

That the Minutes of Council of Monday, November 25, 1974, be approved.

And on motion of Mr. Caliguiri,

MOTIONS AND RESOLUTIONS

Mr. Mason:

Mr. Caliguiri, do you have a report for Council concerning your recent visit to J&L?

Mr. Caliguiri:

Well, yes but I was not prepared to give it now.

Mr. Mason:

Those of you who made the trip know what is going on but a lot of us didn't make it because a snow storm was raging out there. So, I am requesting that you prepare and submit a written report to Council on the matter.

Mr. Caliguiri:

We can certainly make a written report. Mr. President, if that is what you want, then, it will become part of the record. However, as indicated when we went down there last Tuesday, the whole thing hinges on what may happen in the month of January with J&L. Our report seems to be somewhat positive and optimistic about the expansion and if that comes about then we know that they are going to stay. But, if you want a written report, we'll do that, too.

Mr. Mason:

If the group is not inclined to give a written report, I think those feelings should be reversed. It seems to me our purpose in going down there was to get reassurance of the original purpose which was to get some kind of assurance, one way or the other, as to whether or not they are going to stay in the area. Apparently, we can't get Jones and Laughlin to stay and it seems to me a written report, even if only three or four paragraphs, would recall all of the knowledge for each and every Member of Council who was unable to be there. I don't know where everybody else was but I was stranded down there by the Hilton Hotel with snow everywhere. At any rate, we should have the information in front of us; so, if you will be kind enough to give this your consideration.

Mr. Caliguiri:

Will do.

Mr. Mason:

Under Motions and Resolutions. Mr. Lucchino has a Resolution he would like to present. Mr. City Clerk, please read the Resolution.

Mr. Lucchino presented

Bill No. 1683. WHEREAS, the Greater Pittsburgh Chamber of Commerce has come forth with a proposal for an International Exposition in Pittsburgh; and

WHEREAS, the government officials of the City of Pittsburgh would play an important role in such an exposition.

NOW, THEREFORE, Be it

RESOLVED, That the Council of the City of Pittsburgh endorses the exploration of the idea for an International Exposition in the City of Pittsburgh in the early 1980's.

Which was read.

Mr. DePasquale:

I whole-heartedly agree with Mr. Lucchino's Resolution and I only hope that my grandchildren will live long enough to see it. With our track record here in Pittsburgh, it appears that we just don't get things done in 10, 20 or even 30 years. Of course, I am again going back to the Convention Center Site.

Mr. Mason:

What about rapid transportation?

Mr. DePasquale:

Well, the Rapid Transit Program—it may be 70 years before we see the completion of that! Seriously, the Resolution is very much in order and I certainly hope that within 10 years we can have the World's Fair here.

Mr. Lucchino:

I would like to move for the adoption of the Resolution.

Mr. Caliguiri:

I'll second the motion for the Resolution.

And the roll being called, the votes of Council were unanimously in favor, and the resolution was adopted.

Mr. Stone:

Mr. President, at the Community Block Grant Program Hearing we conducted last week, Martin Krause appeared and again brought out the many problems of the East Street Valley Project.

And, again, he called attention to the further delay on this matter. He indicated that there was a report due in November, 1974, and that that report has not been forthcoming.

If you will recall, at the time Krause and I spoke, he stated he would like to request a public hearing whereby Mr. Kassab, Secretary of Transportation and PENN-DOT, would be present along with the city and county officials involved so that this thing can be resolved. I think there is no question that this one has been dragging on for too long—it's some 13 years and some \$30 odd million. Certainly, at this point, they should be able to say how long it is going to take to put in the highways necessary although I wonder when it takes this long a period of time to leave people living on streets that are virtually abandoned with all the living hazards involved under such conditions. Under public interest, I feel it leaves much to be desired and I don't think we should have any further time delay. Thus, I propose that we hold a public hearing before the end of the year, calling in all of the public officials involved and by all means, Secretary Kassab.

Mr. Lucchino:

I'll second that.

Mr. DePasquale:

Begging to differ with Councilman Stone, I know of no purpose that this meeting could possibly serve. PENN-DOT promised those people there just compensation the last time that we met and at that last meeting I thought all this was clear cut. But, they have not followed through with the promised compensation of a home for a home. There is just no purpose in meeting with PENN-DOT any more—and that goes for Kassab, the secretary of PENN-DOT and the whole organization. I'm on record as saying that those people in the East Street Valley were let down something awful.

PENN-DOT has showed no intention of changing their ways. They have constant-

ly blamed the City of Pittsburgh, Council and everybody else when all the time it has been nothing but foul-ups from PENN-DOT—and that is from the start of this whole thing. They can't convince me that there is going to be an East Street Valley Expressway until this whole thing is straightened out and it can't be done until the people at PENN-DOT start doing their homework. There is just no purpose to another meeting; it would be a waste of time. I know that Mr. Stone's intentions are good but I just can't see the situation that exists on this and I know I will not attend another meeting with those people and listen to their packs of lies. PENN-DOT has let those people down miserably.

Mr. Lynch:

I wonder if it might not be more in accordance, with the general indications I seem to get here, for this Council to inquire, formally, from PENN-DOT as to what action has been taken and what is the status of the committee. Maybe in this way we might get answers that would be useful to the neighborhood group at the public hearing. I think it would be good to let the people know, preliminary to the public hearing. We seem to do it backwards—we have a public hearing and, then, later call in the officials involved. If we do it the other way we can find out where they stand and they could have a report prepared for the hearing so that the people who have an interest in this will know what has gone on to date. Let them prepare a record of where they are at—at least that way, we won't be operating in a vacuum. Again, I think this would be more in accordance with the wishes of this Council.

Mr. Lucchino:

I think the purpose and idea of Mr. Stone's motion are in order. Those people in the East Street Valley are still sitting on the slopes and sides of the hill. I think we can still do what Mr. Lynch has suggested and also schedule a hearing. In this way the Secretary of Transportation and whoever else attends will be aware of what we want and they will be prepared to speak. They have had some problems that have caused the setbacks—at least that is what Mr. Kassab has been saying.

Mr. Mason:

This has been going on for years, to my knowledge.

Mr. Caliguiri:

I am already on record, at the meeting where this discussion took place, as asking that a letter be sent to PENN-DOT. I have asked the Assistant City Clerk to draft such a letter and send it out; but he and I have not had an opportunity to get together to get it done as yet. I made this suggestion when Krause was explaining the promises PENN-DOT has made to them to us. It seems that some sort of a discussion was to take place on November 30, 1974, which apparently did not. At our meeting we asked that the letter be directed to PENN-DOT so we could determine if they had made a decision.

Mr. Lucchino:

This action would let the people in the East Street Valley know that we have not forgotten about them.

Mr. Mason:

The meeting to which you refer was our Community Development Block Grant Program Meeting—Krause was in attendance and made some remarks. Well, Mr. Perry and I have not had an opportunity to get together to draft that letter but it will be done.

Now, the question before us is which chronology do we want to use. Do we call the public hearing or—

Mr. Stone:

Mr. President, I'd like to say—

Mr. Mason:

May I finish please? I'm trying to summarize this to make sure that I'm clear on what we are going to do here. We are going to send the letter to Mr. Kassab—but the question is—do we wait for his reply before calling the hearing—or schedule the hearing before we have received the reply. This is an important issue because the letter is going to be directed to Mr. Kassab and whoever else might be connected with it.

Mr. Stone:

I have no objections to a letter being sent at the same time that we schedule the public hearing telling him to answer before the scheduled hearing. But—I say it is important that we get an answer because we want to know where it stands. We want to know when these people can expect some final action. I have noticed on at least some, if not all, of these projects where, if the various forms of government and agencies are not involved together then you generally find one or the other saying—it's the state's fault—it's the city's fault—it's the county's fault—and nothing is ever done.

I think this City Council should take the opportunity to formally announce in public, once and for all, who is at fault and get it resolved. They only seem to act when they are here, publicly, doing something. I feel it's an act of procrastination as far as this Body sending out a letter—they know in advance of any letter why we are calling them and what we expect. So, if you want to send the letter—but I feel the letter should state that we will have the hearing scheduled regardless of whether they answer our inquiries before or on the public hearing date.

Mr. Mason:

Do you have any objections to a letter being sent? It seems to be in order and I see no conflict with the purpose of your Motion.

Mr. Stone:

I have no objections.

Mr. Mason:

We'll write the letter and ask the Secretary in the terms that Mr. Caliguiri has stated here, and at the same time we don't want to obviate and make it unnecessary for any public hearing. You see, I'd like to get their reply before the public hearing, Mr. Stone; I am only trying to bring out both ideas in order that they may complement one another.

Mr. DePasquale:

It is close to six years ago when we had a meeting with the PENN-DOT people and Secretary Kassab attended that meeting. He was quick to point out and say that

the fault belonged with the Republican administration and the former Secretary of Transportation, Mr. Bartlet. And, I said to Mr. Kassab at that time, give the people of East Street just compensation and you will get the project completed. Get it started today and within a year or two, with the just compensation, the whole thing will be well under way. Well, he stood there and he lied to me when he said his regime would do just that. He was going to get East Street built and not leave those people hanging on the slopes. As far as I am concerned, I won't attend another meeting with Kassab—I won't insult my intelligence by attending it. I am not wasting my time with people like him anymore.

Mr. Mason:

All right. You have presented your viewpoint but this is a motion to schedule a public hearing.

Mr. Lynch:

Wait a minute, he has a right to speak.

Mr. Mason:

I think he has said what he wants to say—

Mr. Lynch:

I'm upholding his right to speak and you keep interrupting him.

Mr. Mason:

Mr. DePasquale, do you have anything else to say?

Mr. DePasquale:

No, I'm finished. I have said it all.

Mr. Mason:

His point was made; he was just repeating himself.

Mr. Lynch:

You still don't have the right to stop a debate on a subject.

Mr. Mason:

I assumed he was through.

Mr. DePasquale:

I'm finished:

Mr. Mason:

Does any one else have anything to say—shall we go on ad infinitum? You made your point—you made your point as far as I am concerned. Now, we have a motion that we have a public hearing prior to the end of this year of 1974 and this motion has been properly approved and seconded so please vote by signifying with the usual sign.

And the roll being called, the ayes and noes were taken, agreeably to law, and were:

Ayes:

Miss Ballinger	Mr. Lucchino
Mr. Caliguiri	Mr. Lynch
Mr. Coyne	Mr. Stone
Mr. Kamyk	Mr. Mason
	(Pres't)

Ayes 8. Noes 1 (Mr. DePasquale voting "No").

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Mr. Stone:

Prior to my coming on City Council, this City Council, as a Body, voted that Fifth and Forbes Avenues would be two way streets—the administration wanted them to be one way and we voted that they remain two ways. Well, the administration made them one way streets because allegedly the administration indicated some problems.

Presently, we are, however, faced with a discussion of a more permanent nature and that is Brady Street and how it will enter Fifth and Forbes Avenues—it is important for city and state planning—to know how the bridge will enter Fifth and Forbes and what accommodations will be made for the two-way traffic.

I understand, as well, that in recent months, some additional one-way streets have been recommended and put into ef-

fect, with some options, in the Oakland Area.

I, therefore, move that Planning take this matter up and make what will actually be a re-surveying, so to speak, of the area so we may ascertain what will be in the best interests of the City and we will be able to tell what benefits there are, together with the entrance run on Brady Street.

Mr. Mason:

That was undertaken correctly—we have a motion that City Planning review completely the vicissitudes of the streets changing out there and the effect of the metamorphosis. Is that what you are saying?

Mr. Stone:

That's exactly what I mean.

Ms. Ballinger:

Second the motion.

Mr. Mason:

City Planning is to give the over-all street patterns, areas, etc. affected and the adjustments thereto.

Mr. Stone:

With dispatch.

Mr. Mason:

With dispatch, also, Mr. Stone.

And the roll being called, the ayes and noes were taken, agreeably to law, and the votes being unanimous, the motion carried.

The Chair presented

No. 1684.

City of Pittsburgh

Pete Flaherty, Mayor

December 9, 1974

President and Members of Council
510 City-County Building
Pittsburgh, Pennsylvania

Dear Gentlemen and Madam:

I am recommending in the attached

Resolution the appointment of Councilman Frank Lucchino to the Public Auditorium Board for a term of five years.

Said appointment is also subject to the approval of the County Commissioners.

Very truly yours,
s Pete Flaherty
PETE FLAHERTY

Enclosure

Which was read, received and filed.

Also.

Bill No. 1685. RESOLVED, That the recommendation by the Mayor of Councilman Frank Lucchino of 10 Mellon Terrace to serve as a member of the Public Auditorium Authority Board is hereby approved.

Which was read.

Mr. Caliguiri:

I am pleased that the Mayor has finally seen fit to appoint one of my colleagues to this Board. However, appointments of this type are mandated under the new charter but making this move before the charter becomes effective indicates the Mayor's willingness to cooperate. I'm sure that Frank Lucchino's going on that Board up there will make it a much better one. But, this appointment must also be approved by the County Commissioners before it will be final. However, I am asking that this Council vote affirmatively on the recommendation of Mr. Lucchino.

Mr. Lynch:

Are you moving that the Resolution be approved, because if you are, I'll second that motion.

Mr. Caliguiri:

Yes. I move the adoption of the resolution be approved, because if you are I'll second that motion.

Mr. Caliguiri:

Yes. I move the adoption of the resolution.

Which motion prevailed.

Mr. DePasquale:

May I ask this question? If Council approves Mr. Lucchino and if the County Commissioners do not approve this appointment, then, he will not be on the Board, is that right? It must have the approval of both parties; one is insufficient.

Mr. Mason:

One does not stand by itself; for the fifth man appointed to the Board there must be approval of both.

Mr. Caliguiri moved

That the Minutes of Council of Monday, December 2, 1974, be approved.

Which motion prevailed.

And on motion of Mr. DePasquale,

Council adjourned.

Which were severally read and referred to the Committee on Public Works.

Mr. Coyne presented

No. 1691. An Ordinance creating in Pittsburgh City Government the Office of Department of City Development.

Which was read and referred to the Committee on Finance.

Mr. Coyne:

Mr. President, I would like to make some remarks on the presentation of that paper. By City Council Resolution No. 228, adopted June 10, 1974, the President and members of Council resolved that between June 10 and December 31, 1974, Council would explore the feasibility of establishing a Department of City Development in accordance with Pennsylvania's Code for Second Class Cities, Article XIII, Paragraphs 22801 and 22802 and provide funding in the City's 1975 operating budget for the department.

It is and ought to be, recognized that non-profit organizations such as Allegheny Conference on Community Development, Regional Industrial Development Corporation, Business and Job Development Corporation, and Penn's Southwest, have had outstanding success in increasing the economic base of Southwestern Pennsylvania. However, there is no official City agency which solely devotes itself to promoting the economic health of the City itself or consistently maintains liaison with the developmental efforts of the organizations named above.

City governments throughout the country are vigorously competing to attract business and industry. Boston, Chicago,

Atlanta, Philadelphia, St. Louis, Baltimore and Milwaukee are among cities that have established city departments with the purpose of fostering economic development.

Recently the Pittsburgh Planning Commission presented their proposal for allocating Community Development Block Grants. Following are lines from page 24 of that document dated November 1, 1974. It reads:

"It is clear from the data presented in the first section of this document that the low income housing problem is not so much of a "housing" problem as it is an "income problem. Many families in Pittsburgh simply earn insufficient income to afford standard housing."

My point is that if, by creating the proposed Department of City Development, we can attract more and higher paying jobs to the City, we possibly can produce positive effects in areas like better housing.

Fully 75 per cent of the newly created jobs in the Pittsburgh area between 1960 and 1970 were jobs held by women. Traditionally women have not been the main producer of income in the family.

The preamble to Pittsburgh's new Home Rule Charter lists number one—"dignified housing," and number two—"useful employment," as the things "a responsible City expects aggressive action on from its officials."

While the goals of economic development are within the general purview of the office of Mayor and City Council it is apparent that neither is able to devote sufficient attention to a function so essential to the vitality of Pittsburgh.

Therefore, on Monday, December 16, 1974, I will submit to Council legislation to establish a Department of City Development.

Now, I would just like to add, Mr. President, there is Federal funding available for this type department to be formed and there is a bill in the State Legislature that Director Paternoster reported back to us on at the beginning of October. There is State money available for this type of department. Thank you.

Mr. Mason:

Mr. Coyne, I don't believe the submission of this bill has a number at this point.

Mr. DiNardo:

It has now, No. 1691.

Mr. Mason:

It is No. 1691. Let the steno-typist note that this bill is referred to as No. 1691.

Mr. DePasquale:

I just want to make a remark, Mr. President, on Mr. Coyne's remarks. I want to commend him for advocating this department. It has been a long time coming and is a badly needed department.

Mr. Mason:

Any other comments?

You opened the door, Mr. DePasquale. Mr. Coyne and I had two field workers whom we had on our payroll and they devoted their whole summer to surveying this program in depth. It is not superficial and what Mr. Coyne has put together is a result of the field reports and as a result of joint discussions between him, me and the staff workers who did a tremendous job. This represents the best cooperation formed to making it an official City department.

I feel very proud of Mr. Coyne's leadership in the whole matter. Thank you very much.

Mr. DePasquale presented

Mr. Lynch presented

No. 1706. An Ordinance continuing residency exemption for transfer from Mayor's Assistant Executive Secretary—Personnel to Public Employment Program, Supervisor.

Mr. Stone:

Mr. President, if I may, before you go into that. We are asked to pass on the transfer of an individual, because of a residency waiver. It is my understanding that it is a position waiver rather than an individual waiver. I would move that the City Solicitor—

Mr. Mason:

Pardon me, is this in Mr. Kamyk's bills of presentation?

Mr. Stone:

I am ahead of my time, I am sorry.

Mr. Mason:

You don't mind if I rule you out of order at this time.

Mr. DePasquale:

Mr. President, are we talking about Mr. Flaughter?

Mr. Mason:

Yes.

Mr. DePasquale:

In all of this time he hasn't moved into the City of Pittsburgh?

Mr. Mason:

Obviously not.

Mr. Stone:

Mr. President, I would like now to move that we get an opinion from the City Solicitor relative to whether or not that waiver must be for a position rather than an individual.

Mr. Mason:

Mr. Stone, I would like to put this in Committee. Personally, as a member of this City Council, I am not about to give

waivers to a position for an individual. Yes, we have done that to a position, but once you do that you can hire anybody in that position without a waiver.

Mr. Stone:

That is not my point.

Mr. Mason:

I would like it go in committee.

Mr. Stone:

I have no objection to that. My motion is asking the City Solicitor to give us a legal opinion. I understand this individual has been waived before, but it is not clear if the waiver is because of the position or individual.

Mr. Mason:

It is waived because of the individual.

Mr. Stone:

How do we know that?

Mr. Mason:

Our register shows that.

Mr. Stone:

The question is whether we can move an individual to another position.

Mr. Mason:

That is a question.

Mr. Stone:

I want the Solicitor to give us an explanation as fast as he can.

Mr. Mason:

You will send a communication down so we will have an answer to Mr. Stone's question before Committee on Wednesday morning. Can we do that? I am talking to Mr. City Clerk. We will get a communication to Mr. Mead Mulvihill.

Mr. DiNardo:

I will ask the Solicitor to be here to comment.

Mr. DePasquale:

It is pertinent that I mention it, correct me if I am wrong. I believe Mr. Stone, a year or so ago, made a motion on the floor and we passed on it that we no longer or in the future, waive any residencies.

Mr. Lynch:

That is not correct.

Mr. Mason:

My memory tells me no.

Mr. DePasquale:

Mr. Stone said yes.

Mr. Stone:

I introduced that motion.

Mr. DePasquale:

If you check our records you will find it in there.

Mr. Mason:

We never waived a position.

Mr. DePasquale:

That old argument we can't hire is a lot of malarky going down the drain as far as I am concerned. I hope the other members feel that way. Mr. Stone made the motion and we passed on it for no more residency waivers.

Mr. Mason:

Is that correct, Mr. Stone?

Mr. Stone:

I am not sure of the final decision on that, but I don't think it did pass.

Mr. Mason:

My memory tells me no. I think we waived persons, not positions.

Mr. Stone:

What we are asking now, is before it comes to us Wednesday, does it apply or not?

Mr. Mason:

That is right.

Bill No. 1667. An Ordinance entitled. "An Ordinance creating in the Office of the Mayor an Office of Consumer Advocacy."

Which was read.

Mr. Stone:

Mr. President, I would like to register my objection to Bill No. 1667 with these remarks.

Mr. Mason:

Which is related to what?

Mr. Stone:

Consumer Advocacy. When the Budget was presented to us, the Office of Consumer Advocacy was not included in the Budget. A week later, a resolution was submitted and we have since found out, this budget can go to \$80,000 and \$100,000. I don't think those figures can be considered a slight oversight.

In view of that, we have been told that some of the monies would be forthcoming from the Federal Government, they believe forthcoming. In the event it is not forth-

coming. It would mean somewhere in this Budget we would have to find somewhere between \$80,000 and \$100,000.

If we have a Consumer Advocacy Department, in my opinion, it should not be a paper organization with several expenses, we have that already. For instance, I indicate our senior citizen department, with Mr. Vogel, has one man, one desk, no room, no secretary, no help and in fact, no nothing. As a result of that, this year in 1974, we have already gone into 12 months of this year and we still don't have a plan for the elderly.

In addition, the matching funds maybe in jeopardy by not completing this year, 1974. I don't believe in setting up false hope.

This Office of Consumer Advocacy is one, that is popular when we are talking about doing it. If it is, in fact, creating a paper organization, then, it is really not doing it.

The policy of this Council is to get more information before we pass legislation and in this case the Ordinance is only saying so much. I therefore, register my objection.

Ms. Ballinger:

I wish also to present my objection for the same reason I outlined last Wednesday at the meeting when it was presented to us.

MOTIONS AND RESOLUTIONS

Mr. Coyne presented

Bill No. 1717. WHEREAS, the Water Department of the City of Pittsburgh produces a high quality of water at comparatively low rates for its 90,000 consumers; and

WHEREAS, there are 29,000 water consumers in the Southwestern section of the City who presently cannot avail themselves of this quality product and other benefits that accrue to Pittsburgh Water Department consumers; and

WHEREAS, much dissatisfaction currently is being expressed by consumers of the water company that serves Pittsburgh residents in the South Hills to the County Health Department, the Environmental Protection Agency and City of Pittsburgh officials; and

WHEREAS, the Water Department of the City of Pittsburgh draws its water supply from the Allegheny River, historically the cleanest of Pittsburgh rivers; and

WHEREAS, the Pittsburgh Water Department System presently has the necessary product capacity, and an ultra-modern Filtration and Treatment Plant to supply water to South-Western part of Pittsburgh consumers if enabled to; and

WHEREAS, by authority of Public Law No. 73 of April 29, 1874, the City of Pittsburgh may mandate the Western Pennsylvania Water Company to sell to the City of Pittsburgh those properties of the Water Company located within the limits of the

City of Pittsburgh, payment to be made in accordance with the provisions of the Act.

NOW, THEREFORE, Be it

RESOLVED, That the Law Department of the City of Pittsburgh determine the legal procedures necessary to initiate a move by the City of Pittsburgh to purchase the in-Pittsburgh property and water system of the Western Pennsylvania Water Company, and report its finding to City Council.

Which was read.

Mr. Lynch:

Could we have an opportunity to hear from the Director of the Department of Water to describe the impact of this transaction and on his ability to function as well as have a discussion with those people from the water companies involved to determine how feasible it is first in this situation.

This is a great idea if we will be advised by Mr. Miller and the technicians in the Water Department before we proceed.

Mr. Mason:

Could Mr. Coyne entertain that suggestion?

Mr. Coyne:

I agree, but that is something that would happen down the road. All this resolution calls for is an opinion from our Law Department to determine if the law of 1874 is a law that would mandate that the Western Pennsylvania Water Company would have to sell the City of Pittsburgh their operations within the City of Pittsburgh. If we got an affirmative recommendation from the Law Department that this could happen, then, I would pursue it and ask them what would happen if we were to purchase the water company.

Mr. Lynch:

Is it not unusual to pass a resolution asking the Law Department for a legal opinion?

Mr. Mason:

Let's explore this a little bit.

Mr. Stone:

I join in this resolution with Mr. Coyne because of the problems they are having. Presently we have been having questions as to whether the City could take it over. I think it is an important question and it ought to be resolved now. If we can't take it over we should take other steps. There are a lot of problems with the Southwest water as it is now. The contention is, since they are providing the water, we are referring them back to that particular water supplier. We have to realize the people south of the river are as much citizens as the rest of our City and we should be concerned for them as well.

I think we should find out and pressure ought to be on them. If they can't perform what they are supposed to do, then, this City should take over and provide services completely to the residents of the City of Pittsburgh.

Mr. DePasquale:

The only thing I want to add, is while we are looking for opinions, somebody is going to die from drinking that poison water.

Mr. Mason:

That is an observation.

Mr. DePasquale:

An active accurate observation.

Mr. Mason:

That is your observation.

Mr. Caliguiri:

Is it, Mr. Coyne, that this resolution be put in Committee and then followed up?

Mr. Coyne:

Yes, that is right. I would like the Solicitor to be present at Wednesday's Committee meeting.

Mr. Lynch:

Mr. Coyne, is that not unfair to bring it up at Wednesday's meeting about a law made in 1874?

Mr. Coyne:

I am not expecting any decision on

Wednesday. I would like to talk with Mr. Mulvihill on whether the City of Pittsburgh could present to the Utility Commission a petition from the people who use the water in the area and indicating they are not satisfied with the service of the water company, would that be cause enough for the City of Pittsburgh Water Department to take over the operations of the Western Pennsylvania Water Company.

Mr. Mason:

Have you been notified in advance on some kind of breakdown on what the opinion might be?

Mr. Coyne:

It was my understanding, if the resolution was on the Agenda on Wednesday, we would ask him to come up automatically.

Mr. Mason:

Not if we pass the resolution. If we pass the resolution today, he has no way of knowing. There are two points of view.

Mr. Lynch:

I have not expressed a separate point of view. We have to proceed, but I didn't think introducing a resolution for a legal opinion was a proper way to request a legal opinion. The ruling I got from Mr. Stone is not binding in this. Is this the appropriate order to use to get a legal opinion? I have no quarrel with the intent. My question is, is this the appropriate way for us to ask for a legal opinion by route of a resolution? If the legal opinion is to be presented to us at the earliest possible date, then, I would like a ruling on that question.

Mr. Lucchino:

I think that this Council, as a body can do what it wants to do. If we want to pass a resolution to get a legal opinion, I think that is our business. I don't think the parliamentarian can say we can do or not do it. I think we can do what we want. I want to speak on the Merits, but that would be out of order.

Mr. Lynch:

Can I have a ruling? I will abide by that ruling.

Mr. Lucchino:

On the merits I think we ought to approve this resolution today under motions and resolutions. There is no need to wait until Wednesday unless Mr. Coyne is in agreement. I think we are showing that this Council is a major body if we approve this. This will impress the City Solicitor that we are dead serious about this and this is not just an idle gesture by the members, but Council supports this. Maybe Mr. Coyne would want to approve it today.

Mr. President, I am opposed to Bill No. 1743. If I may, we are asking for a residency waiver for Mr. Ralph Flaughner. I would like to state on the outset that I have nothing personal against Mr. Flaughner, but I do object to the granting of a waiver of residency. He has been on the payroll

for one and a half years and even now, is a non-city resident. He has not made an effort to move within the boundaries of the City of Pittsburgh.

This is a new variance and it will not result in a loss of employment, therefore, I see no reason for granting it. I do see a reason for not granting it. With unemployment on the increase, it would appear to me the City of Pittsburgh should be mentioning to others that we take care of our own. Normally, a City position ought to be filled by a City resident.

I am hardput to understand that we have 500,000 people within the boundary lines of the City of Pittsburgh. Surely, we can find one person out of the 500,000 qualified for this position. I, therefore, register a no vote on that.

MOTIONS AND RESOLUTIONS

Mr. Lynch:

Mr. President, I would like to make my report to Council if I may. Gentlemen, the business of making an annual address to Council in regard to the Budget is not much fun, because we did all the work in public. Certain observations about this Budget ought to be made in caucus to establish and reach with the Administration and our Council, positions concerning the final affairs of the City.

Once again your City appears to be in sound fiscal condition. The major unknown in this year's fiscal situation seems to be, not whether there is a surplus but its size. This has led us to the question of what to do with this surplus: should we retain it in the City's coffers as we have in other years with the hope that the administration will relent and actually use some of these monies for the purpose which Council intended, or return the surplus to the taxpayer.

We have had myriad requests from neighborhood and civic groups requesting, indeed, demanding an increase in the quantity and quality of City services.

In this budget we have attempted to strike a reasonable compromise between what the City needs and what it is likely to get from the Administration.

The budget we are submitting today totals \$119,844,961.00. This includes a salary increase for all City employees including an eight percent increase for non-union personnel.

We have once again set aside contingency funds totaling over 1¼ million dollars for programs which we hope that the Administration will implement. Among these are programs for the elderly, continued improvement of the emergency medical care facilities and improved recreational services.

We are pleased to note that last year the Mayor, in spite of his protestations, did respond to these community requests by implementing many of these contingency funds for worthwhile social needs.

This year Council has made certain other innovations. Among these are:

- a. We have provided funds for an increase of 50 policemen to the force, in response to many community demands.
- b. We have increased the City's contribution to the civic and cultural groups which play such an important role in maintaining the quality of life in our City; groups such as the Pittsburgh Symphony, American Wind Symphony and the Carnegie Institute. On this score it might well be pointed out that while our City tries to be generous in its support of cultural efforts affecting us, we encourage more active support by other municipalities within Allegheny County, especially our more prosperous suburban neighbors, who make great use of these services.
- c. We have created a Department of City Development whose main purpose it will be to keep what industry we have and to attract new business and more jobs to our City.

In spite of the increased services mentioned above, your Council has found ample surplus in the budget proposal to allow for a modest but significant tax reduction. We have provided for this reduction in two areas:

1. A reduction of Real Estate Taxes of 1½ mills on land and ¾ mill on buildings. We hope that this reduction will not only aid the property owner but will tend to soften increases to the renter.
2. A reduction of one mill on the Business Privilege Tax. This is an effort on our part to encourage small businesses to remain in the City and indicate our recognition of the inequity of this tax as well as our intention to offer relief in the future.

In the matter of taxes, it is important to note that our country is anticipating a period of what many economists feel will be another round of double digit inflation. There is no way our City can be insulated from this national malady. Our costs are likely to soar just like everyone else's. This is the underlying reason Council has gone to great lengths to provide wage increases.

However, even considering the combined effect of inflationary increases in salaries and other items to the City, and the reduction of tax rates, we fully anticipate ending the coming year with another substantial surplus.

As a footnote, for the first time in your City's history the deliberations affecting your Budget were held totally in open session. There were no caucuses or executive sessions in which decisions were arrived at privately and merely formalized in public as has been the usual practice. In this regard, I wish to personally commend this Council for its performance under new and untried ground rules.

We have constructed a budget in which Council can take pride, and in which the tax payer can have confidence. I am proud and pleased to present it.

Mr. Mason:

Thank you, Mr. Lynch.

Mr. Caliguiri

Mr. President, I think in light of the great win the Pittsburgh Steelers had yesterday, we should as Members of Council, wish them well in the Super Bowl and they will beat the Minnesota Vikings.

Mr. Lynch moved

That the Minutes of Council of Monday, December 23, 1974, be approved.

Which motion prevailed.

And on motion of **Mr. Stone,**

Council adjourned.

BUILDING PURPOSES

No water will be furnished for building purposes without the installation of a water meter, approved and registered by the Water Department of the City of Pittsburgh. Metered rates, therefore, shall be used to compute consumption of water for the purposes of building.

See 4B for restrictions on the use of fire hydrants.

Section 3. **DEFINITIONS** As used in this ordinance, unless the context clearly indicates a different meaning, the following words and phrases shall have the meanings set forth below:

A. METERED WATER RATES-The amounts charged for the consumption of water, the use of which is measured by a meter installed, approved and registered by the Water Department of the City of Pittsburgh.

B. FLAT WATER RATES-The amounts charged for the use of water as measured by the size, condition, plumbing facilities and/or other relevant equipment of buildings on the premises where there is no meter available for water use.

C. APPROVED METER-The measurement device selected by the Department of Water for use in determining water usage by consumers, together with any attachments for the maintenance, repair, reading, or other function thereof.

D. **FERRULE**-The connecting link between the consumer's water line and the City main water line.

E. **EXONERATION**-Reduction in the amount of a water assessment made in the interests of equity when excessive water use is due to extraordinary circumstances beyond the control of the user.

F. **ADJUSTMENT**-A correction in the amount of an excessive water charge resulting from an error on the part of the City.

G. **PREMISES**-The area to which a particular water use is restricted, as determined by a combination of factors, including, but not limited to, ownership, type of building, and use of real estate.

H. **QUARTER**-A 3-month portion of the calendar year, e.g. January through March, April through June, July through September, October through December, or any similar 3-month period.

Section 4. **SPECIAL CHARGES AND USES**
- Additional charges shall be made in the following cases:

A. **PERMIT FOR USE OF FIRE HYDRANTS**
Use of fire hydrants is restricted to authorized persons employed by the City of Pittsburgh. Persons desiring to use fire hydrants must apply to the Director of the Department of Water who may, upon evaluation of the request, issue a permit. The cost of the permit may include compensation for an assigned fire hydrant operator and water usage on the fire hydrant. A minimum charge of five dollars and fifteen cents (\$5.15) will be made for the use of water from each fire hydrant for each day the water is used. Usage exceeding the minimum will be charged at the rates established by this ordinance. The fee will also include all other charges arising from such usage. (See also, "Building Purposes", 2 supra.)

WATER FOR FIRE PURPOSES - No charge shall be made for water used during fires. All water used through fire systems except during fires, shall be charged at metered rates. All fire systems shall be metered, excepting sprinkler head systems and the minimum charge for each quarter

year shall be as follows:

2" and 3" meters	\$ 7.12 per quarter
4" meters	10.67 per quarter
6" meters and over	16.01 per quarter

C. **PERRULE CHARGE** - Where a premise has been razed and the water service line remains connected to the City main water line, there will be a \$2.50 charge per quarter. Removal, repair and maintenance of the service line is at the property owner's expense including ferrule and connection to main line.

Section 5. **MINIMUM RATES FOR METERED WATER** - A quarterly minimum charge will be assessed for each metered account based on the meter size or gallon usage, as follows:

Meter Size	Minimum Gallon Usage	Minimum Water	Usage Charge
5/8" or 5/8" x 3/4"	1 -	5,000	\$ 5.15
3/4"	5,001 -	7,000	7.39
1"	7,001 -	14,000	13.20
1-1/4"	14,0001 -	22,000	19.79
1-1/2"	22,001 -	29,000	27.10
2"	29,001 -	50,000	45.40
3"	50,001 -	120,000	105.38
4"	120,001 -	210,000	185.89
6"	210,001 -	526,000	419.84
8"	526,001 -	975,000	734.99

Where premises are completely vacant, the water supply has been shut off at the curb box and the water meter has been returned to the Central Meter Shop, the minimum charge will be \$5.15 per quarter.

Section 6. **METERS** - Pursuant to the Act of 1911, May 12, P.L. 295 5, as amended (53 P.S. 25921), the City Water Department is hereby authorized to order any consumer to whom water is furnished to purchase and have installed a water meter of a size type and setting approved by the Director of the Department of Water. In the event the consumer fails to comply with the order to install a water meter within 90 days after receipt of said order, the Department of Water is authorized to discontinue water services to such premises until the order has been complied with. Said water meter shall be obtained from the City, at cost, the full amount to be paid at time the meter is procured. Ownership of all meters so obtained remains with the City of Pittsburgh.

A Consumers who are unable to admit meter readers on a regular basis will be required to acquire from the Water Department, at cost, additional meter equipment to be used in reading meters remotely. Full payment for the remote device and the cost of installing it must be made prior to installation.

B. It shall be illegal for any consumer to disconnect or remove any water meter installed by the Department of Water pursuant to this ordinance.

C. Meters which are damaged by abuse or through the neglect of any consumer shall be repaired by the City at the expense of said consumer. Meters that are stolen shall be replaced by the City at the expense of the water user.

D. Each consumer shall be billed separately for gallonage on each meter which is read, regardless of the number of metered premises he owns.

Section 7. ASSESSMENTS AND BILLING

A. **FLAT RATES** - An assessment shall be made of the water use in all non-metered premises on the basis of the schedule set forth in Section 2 hereof. Pursuant to the Act of 1911, May 12, P.L. 295 3 (53 P.S. 25943), water rents on a flat rate basis shall be payable in advance during the months of January, February and March of each year. A discount of 2% shall be allowed on the flat water rents paid during the month of January.

Alternatively, consumers assessed at the flat rate shall have the option to pay water rents quarterly as follows:

First Quarter - by March 31
Secon Quarter - by April 30
Third Quarter - by July 31
Fourth Quarter - by October 31

If payments are not made by the prescribed due date, they shall be considered delinquent, and penalty shall be added at the rate of 2% of the total amount of delinquent water rents and interest at the rate of 1/2% per month on the face amount of the delinquent water rents shall be added and every month or part thereof that the same is delinquent and unpaid.

B. **METER RATES** - All meters shall be

read at least twice a year and water rents assessed four times per year. Payment of metered water rents made within 15 days after the first day of the month due shall receive a 2% discount. From the 15th day of the month until the end of the month water rents are payable at face value. Any water rents not paid by the first day of the following month become delinquent and 1/2% interest and 1/2% penalty shall be added to the face amount for each month or part thereof that the same remain delinquent and unpaid.

C. **ESTIMATES** - If the Water Assessors are unable to obtain a reading of a meter or a determination of the water consumption for any reason, except as provided in D below, an estimated bill for water usage shall be rendered in an amount reasonable commensurate with the consumer's normal usage for a similar period as determined by criteria set forth in Water Department Regulations. The estimated bill will be due and payable at the regular times and, if unpaid at the due date, will accrue penalty and interest as aforesaid.

Alternatively, if the meter is missing from the premises for any reason, water rents may be assessed at double the flat rate charge and penalty and interest added as aforesaid.

D. **DELINQUENT WATER ACCOUNTS** - Delinquent water accounts shall be collected by the Treasurer, who shall, in default of payments, proceed to the collection thereof, and the filing of liens as provided under the Acts of Assembly. In addition to the remedy so provided, the Department of Water may make reasonable regulations concerning the cessation of water service to delinquent premises.

Section 8. EXONERATIONS.

A. LIMITATIONS

All requests for exonerations for excessive assessments must be made during the current year in which the assessments are made or within 12 months after the termination of said year, and no exoneration shall be granted after said period has expired. Such requests shall be made in writing and be directed to the Board of Water Assessors.

B. VACANCIES

(1) **Flat Rate Assessments**

(a) Where the premises are completely vacant and the entire supply of water is shut off at the curb box, upon filing by the owner of a notarized vacancy affidavit in the Office of the Department of Water, exonerations of 90% will be issued for the period during which the entire premises are vacant and the water shut off, provided that the period during which the water is shut off must be greater than 60 consecutive days. The exoneration shall not be in an amount less than the charge for minimum metered accounts, that is, \$5.15 per quarter.

(b) For changes in water uses, where fixtures are removed and water uses discontinued, exonerations will be issued covering the discontinued use from the date of approval of the contract covering the revised water uses. In case any owner of any premises shall cause or allow water to be used for any premises or in any fixtures for which there is no approved water contract on file, the rate shall be as specified in Section 2 hereof and shall date from the preceding January 1, and the water for the entire premises shall be shut off until an approved contract for such additional water uses or fixtures has been signed and placed on the file in the office of the Department of Water. All fixtures on any premises, whether used or not, will be assessed as long as they remain in position.

(2) Meters

No exoneration need be granted in respect to premises in which water used is measured by a meter inasmuch as no water use will register during the period of the vacancy and only the minimum rate will apply. However, should the period of vacancy extend through more than one meter-reading period and no remote reader is available, the property owner shall notify the Water Department by means of a signed affidavit requesting that no estimated bill be rendered for that period.

(3) Exceptions

Where premises acquired by the Commonwealth of Pennsylvania, the School District of Pittsburgh, the Urban Redevelopment Authority of Pittsburgh or other governmental agency for highway, school or other public redevelopment purposes are completely vacant; and notice thereof has been given to the Department of Water and the City Treasurer; and the entire supply of water is

shut off and the meter removed, exonerations of 100% shall be made in the case of any building which the aforesaid governmental bodies or agencies certify to be vacant and scheduled for demolition. No exoneration shall be granted for any water charges incurred prior to the notice and certification above described.

C. UNDERGROUND LEAKS

Exoneration, where merited, will be made on the gallonage accruing over and above normal use for the particular account. The amount of the exoneration will not exceed 50% of the excess gallonage over and above normal usage. "Normal usage" shall be deemed to be the average gallons used in the four quarters preceding the underground leak.

PITTSBURGH HOME RULE CHARTER

Approved by the Electorate of the City of Pittsburgh on November 5, 1974.

PREAMBLE

In order to achieve increased independence for city government, and more power over local matters, the people of Pittsburgh adopt this home rule, charter as an instrument of progress and hope.

It has been created in a long labor, open to all citizens and participated in by many.

The purpose of this charter is a responsible city. A responsible city is one which seeks to ensure that all of its citizens' needs are met, whether from public or private, city, county, state or national sources.

A responsible city is one which expects aggressive action from its officials toward the achievement of dignified housing, useful employment, pure air and water, efficient transportation, excellent education, health, safety, recreation and culture, and the other conditions conducive to human growth.

It is one which provides equal protection of the law for all citizens, with no one denied the enjoyment of civil, economic or political rights, or discriminated against in the exercise thereof because of race, color, creed, national origin, age, handicap or sex.

It is one where all citizens have reasonable access to records and officials and where police power is under civil direction at all times.

It is one where citizens generously accept service in government, participate thoughtfully in public decisions, support public employees in the performance of lawful duties, avoid frivolous use of their rights and supply their government with sufficient resources to meet its responsibilities.

The achievement of the purpose of this home rule charter depends upon the constant interest and concern of citizens.

Following each federal census, the mayor shall promptly review each community advisory board district and recommend changes to council in the number of elected members of community advisory boards needed to maintain equality. Council shall then amend the appropriate community advisory board ordinance so that equality is maintained in this regard. In addition to elected members, each community advisory board shall have delegated board members appointed or elected by community organizations of the district. The number of delegated board members and the recognition of community organizations shall be as stated in the general ordinance, which shall also provide for periodic review of the recognition of community organizations. A delegated board member shall have a vote equal to that of an elected board member.

604. ELECTION AND QUALIFICATIONS OF COMMUNITY ADVISORY BOARD MEMBERS

Each elected member of a community advisory board shall be chosen at a municipal election to serve for a term of two years. An elected member shall take office on the first Monday of January following the election. No member of a community advisory board shall have held, within the year immediately preceding commencement of a term, any other

elected position with the City, county or state governments. No person who was a candidate for city or county, office may be a member of a community advisory board until after the expiration of one year following the election in which that person was a candidate. Elected community advisory board members shall reside in the community board district which they serve.

**605. POWERS AND DUTIES OF
COMMUNITY ADVISORY BOARDS**

The powers and duties of each community advisory board shall be:

- a. to review and advise council and the mayor on proposed zoning changes in the district;
- b. to review and advise council and the mayor on the social and physical plans for the district;
- c. to review and advise council and the mayor on the distribution of city services to the district;
- d. to meet annually with the mayor and council to discuss problems, needs and public affairs of the district;
- e. to mandate, by a majority vote of all its members, a meeting within two weeks with the appropriate head of a major administrative unit of the City to discuss a specific district problem.

Council may, by ordinance, give additional powers and duties to community advisory boards. Each community advisory board shall hold public meetings, after reasonable public notice within the district, not less than four times each year to afford an opportunity to district residents to make known their views and needs.

**606. PROCEDURES OF COMMUNITY
ADVISORY BOARDS**

Council shall, by general ordinance, prescribe procedures for the exercise of the powers and duties of community advisory boards.

**607. FUNDS AND EXPENSES OF
COMMUNITY ADVISORY BOARDS**

Community advisory boards shall receive no grants from city tax funds and community advisory board members shall serve without compensation. Community advisory boards may, however, accept donations and grants from any other source.

608. REVISION OF

COMMUNITY ADVISORY BOARDS

Council may, upon receipt of a petition with signatures as required in section 602, amend the appropriate ordinance to revise the organization and procedures of a community advisory board. District boundaries shall be revised only as provided by Section 601.

**609. DISSOLUTION OF
COMMUNITY ADVISORY BOARDS**

Council may, by ordinance, dissolve community advisory boards as of the end of any fiscal year. A particular community advisory board shall be dissolved only by a petition signed by the same number of qualified electors residing in the community advisory board district required by section 602 and an ordinance adopted after a public hearing by council with public notice to that community advisory board district.

**ARTICLE 7
PERSONNEL**

701. PERSONNEL SYSTEM

The mayor shall propose a personnel system to council for approval and adoption by ordinance. The system shall be uniform for all employees. It shall include written procedures for appointment, promotion and removal based on merit and fitness as demonstrated by examination or other evidence of competence, with due consideration for seniority, insofar as permitted by law. Appointments, promotions and removals of subordinate officers and employees within major administrative units shall be made by the major administrative unit head on the basis of the system adopted. The right of collective bargaining for employees is recognized in accordance with law.

702. APPEALS BOARD

The personnel system shall include an appeals board which, unless changed by ordinance, shall consist of three persons; one appointed by the mayor, one by council and one by the controller. Appeals board members shall be removed only for just cause and with the approval of two of the three appointing authorities.

703. AGE RESTRICTIONS

No person who has reached the age of eighteen shall be denied employment by the City because of age.

704. RECRUITMENT

In order that every eligible citizen of Pittsburgh has the opportunity of being employed by the City, council and all units of government shall recruit for employment, persons from every sector of the City's population, with special effort towards the recruitment of women, handicapped persons and persons from disadvantaged minority groups until such time as the human relations commission finds that no city resident is denied employment for any other reason than inability to perform the job sought.

705. POLITICAL ACTIVITY OF EMPLOYEES & GIFTS

Employees of the City are prohibited from engaging in political activity during working hours and at all times in city offices. City employees may not hold an elected public office unless a leave of absence is taken without pay. Certain described classes of city employees and officers may be required, by ordinance, to take a leave of absence without pay while a candidate for elected public office. City employees shall not be permitted to accept any gift or thing of value in connection with their employment other than their salary, nor be compelled to contribute to any fund other than that required by law. No solicitation shall be made of a city employee for any purpose during working hours. Nothing contained in this section shall affect the right of city employees to support a political party, to vote as they choose, to hold party office or to express publicly and privately their opinions on political subjects and to attend political meetings.

706. PROHIBITIONS IN GENERAL

No elected official, officer or employee shall in any manner receive benefit from the profits or emoluments of any contract, job, work or service for the City, or accept any service or thing of value directly or indirectly upon more favorable terms than those granted to the public generally, from any person, firm or corporation having dealings with the City. No elected official, officer, or employee shall solicit or receive any compensation, gratuity or other thing for any act done in the course of public work. This section shall be broadly construed and strictly enforced. Any violation of this section shall cause the offending official, officer, or employee to forfeit office or employment.

707. MULTIPLE EMPLOYMENT

PROHIBITED

No person shall hold more than one compensated position in city government, and no compensated city employee shall hold a compensated position in any other government except as follows:

- a. officer or member of the Pennsylvania National Guard of federal reserve;
- b. the controller may also serve as controller for the city school district; and the deputy controller may also serve as deputy controller for the city school district;
- c. a treasurer, or person serving in that capacity, may also serve as treasurer for the city school district.
- d. member or employee of any sinking fund commission or pension board.

708. POLICE OFFICIALS CIVIL SERVICE GRADE

Any police officer appointed to a higher position exempt from tenure protection, other than the position of police chief or its equivalent, from a position having tenure protection, shall, in the event of subsequent removal from the higher position, retain the tenure right in the former position.

709. OATH OF OFFICE

Every elected official and officer and every appointee before commencing official duties shall take and subscribe the following oath: "I do solemnly swear or affirm that I will support the Constitution of the United States and of this state and the charter of this City and that I will faithfully discharge the duties of office to the best of my ability," and shall file this oath, duly certified before the officer before whom it was taken, in the office of council.

ARTICLE 8 GENERAL PROVISIONS

801. DISCLOSURE OF INTERESTS

All elected officials of the City shall, on or before January 15 of every year during their term of office, file a disclosure, as of January 1 of that year, with the controller, which shall be available for public inspection and shall contain the following information:

- a. the names of all business or non-profit corporations, associations, partnerships, joint ventures, estates, proprietorships, trusts, business activities and organizations, other than religious organizations and religious corporations.

1. with which the official has any connection as an owner, officer, employee, consultant, contractor, creditor, shareholder, member, partner, joint venturer, trustee, beneficiary or participant; or
2. in which the official has any financial or property interest in any form, whether a legal interest or equitable interest or otherwise;

stating, as to each name, the nature of the connection or interest;

- b. a brief description of all legal and equitable interest of any degree in real property held by the official;
- c. a statement of the remaining amounts of any funds and contributions related to the officials most recent nomination and election, and by whom and how held; and
- d. the names of all creditors of the official and debts as to which the official is co-signer, surety or guarantor in excess of \$1,000.

802. CAMPAIGN CONTRIBUTIONS AND EXPENSES

In connection with every election to city office, each candidate for nomination or election, and every treasurer of a political committee or person acting as treasurer, shall file a public preliminary account of receipts and expenses five days prior to the election. The preliminary account shall be in the same form and contain the same information as required by law to be filed following an election except that the information shall be provided as of a time seven days prior to election.

803. VACANCIES

The office of any elected official shall become vacant upon death, resignation or removal from office in any manner authorized by law or this charter or upon forfeiture or failure for any reason to assume office within forty-five days after commencement of the term.

804. FORFEITURE OF OFFICE

Elected officials of the City shall forfeit their office if they:

- a. at any time during their term lack any qualification for the office prescribed by this charter or by law, or
- b. are convicted of first degree murder or a felony of the first or second degree as set forth in the penal code of the Common-

wealth and all appellate remedies exhausted, or

- c. falsify or fail to make an annual disclosure of interests as required by section 801 of this charter, or
- d. falsify or fail to make a preliminary account of campaign contributions and expenses as required by section 802 of this charter.

805. PENALTIES

Council shall, by ordinance, determine the penalty for any violation of any provision of this charter except where the charter expressly provides a penalty.

806. GROUNDS FOR REMOVAL — IMPEACHMENT

Every elected official or officer pursuant to impeachment proceedings may be impeached, suspended or removed from office in the event of mental incapacity, incompetency, neglect of duty, malfeasance, mismanagement or for any corrupt act or practice.

807. IMPEACHMENT PROCEEDINGS

Impeachment proceedings may be initiated by presentation of a written petition to the court of common pleas signed by at least twenty qualified electors who reside in the City. If in the opinion of the court, reasonable grounds are set forth in the petition, the court shall appoint a citizen investigating committee to make a written report to the court. If the committee reports the charges well founded, council shall sit as a court and the president judge of the Court of Common Pleas shall preside. Except in cases where the city solicitor or the mayor is accused, the city solicitor shall act as prosecuting attorney. If the city solicitor or the mayor is accused, or the city solicitor is unable to serve as prosecuting attorney, the solicitor for the controller shall act as prosecuting attorney. The decision shall be filed in the Court of Common Pleas. If the accused is found guilty of any charge specified, the court shall enter an appropriate judgement and declare the accused's office vacant.

808. SUBPOENA POWER

In any case where an elected official, officer, or unit of government has the power to conduct public hearings, the elected official, officer or unit of government shall have the authority to issue subpoenas for the attendance of witnesses and to compel testimony and the

production of documents and other evidence. The subpoena shall issue in the name of the City and shall be signed by the elected official, officer or presiding officer of the unit of government. Any witness who refuses to obey a subpoena, or who refuses to testify under oath or affirmation, may be cited for contempt in any court of common pleas having jurisdiction.

809. ANNUAL INVENTORY

The executive branch shall conduct and maintain an annual inventory of all city property which shall be readily accessible to all units of government.

810. PUBLIC RIGHT TO INSPECT RECORDS

City records, the disclosure of which would invade a person's right to privacy, hinder law enforcement, endanger the public safety, or breach a legally recognized duty of confidence, or the nondisclosure of which is legally privileged, or which have been prepared for or by the city solicitor for use in actions or proceedings to which the City is or may be a party, shall not be available for public inspection. All other city records shall be open for public inspection, but the officer, unit head, board or commission or other governmental agency of the City having the care and custody of such records may make reasonable regulations governing the time, place and manner of their inspections. For the purposes of preservation, copies of city records may be substituted for inspection in lieu of original records.

811. SEVERABILITY

In the event this charter cannot take effect in its entirety because of the judgement of any court of competent jurisdiction holding invalid any provision, the remaining provisions of the charter shall be given full force and effect as completely as if the provision held invalid were not included.

812. EFFECT OF CHARTER ON EXISTING LAWS

Subject to pertinent enabling legislation authorizing a home rule charter, this charter shall supersede any existing charter and all acts or parts of acts, local, special or general and all ordinances and resolutions of the City to the extent that they are inconsistent or in conflict with this charter. All existing acts or parts of acts and ordinances affecting the organization, government and powers of the City, not inconsistent or in conflict with this charter shall remain in full force, and shall be construed as if enacted under this charter, but as of the date of their original enactment. No contract existing on the effective date of this charter shall be affected by it. Council by ordinance or resolution may supersede any act of the general assembly insofar as permitted by pertinent enabling legislation and this charter.

813. EFFECTIVE DATE AND SCHEDULE

This charter shall become effective on the first Monday of January, 1976, except in the following particulars:

- a. Members of council shall be elected in 1975 under the provisions of this charter, and for that purpose all sections of this charter relation to election of members of council shall become effective immediately upon the adoption of this charter by the electors.
- b. Council seats filed in the 1973 municipal election which become vacant for any reason after the adoption of this charter shall be filled in accordance with the provisions of this charter except for the first vacancy which shall remain unfilled.
- c. Appropriations shall be made for the year 1976 so as to implement fully the provisions of this charter.

Council shall as promptly as possible adopt any legislation necessary to implement all provisions of this charter.

COMMENTARY TO CHARTER

PREAMBLE

The Preamble sets forth the basic rights and duties of the citizens of the City of Pittsburgh, and is an integral part of the charter. City government has responsibility for the human needs of its people, and may fulfill these responsibilities by arrangements with other governments and non-governmental organizations, as well as by its own direct services.

ARTICLE ONE

101. Full home rule powers are conferred on the City. In accordance with the Home Rule Charter and Optional Plans Law of 1972 (Act 62 of 1972, as amended, 53 P.S. 1-101, et seq.) and any subsequent enabling legislation, the city government assumes all powers not expressly denied it. Previously, the City exercised only those powers expressly granted to it.
102. Major administrative units include departments and bureaus, the heads of which report directly to the mayor.
103. The Government Study Commission preparing this charter was prohibited by state law from proposing any changes to the territorial boundaries of the City. As of the writing of this charter they encompass 55.525 square miles, and have been largely unchanged since August 19, 1955.

ARTICLE TWO

201. The basic form of government is to be the "strong mayor" form. This form is one in which the mayor controls and has wide powers of appointment over the units of city government, the power to initiate and veto legislation and to propose the City's budgets to which council must react within a definite time.
202. The mayor should be personally familiar with the opportunities, needs and problems of the City.
203. The detailed regulations under which the mayor is elected are set forth in the state election code.
204. The mayor is charged with executing and

enforcing laws, ordinances, resolutions, and the provisions of this charter. A distinction is intended. Execution refers to affirmative action by the mayor to carry out legislative mandates. Enforcement refers to ensuring compliance with legislation by those affected. The mayor, like any other citizen, may submit proposed legislation to a member of council for introduction.

Included specifically are the powers and duties to promote intergovernmental relations, and to ensure all citizens, including minorities and disadvantaged, an equal opportunity to obtain city contracts.

205. The mayor is to keep citizens fully informed about their city government including all major administrative units, boards, commissions, authorities, magistrates courts, and community advisory boards. The annual report should include a current assessment of employment and economic development, neighborhood conditions, human relations, police-community relations, crime prevention and human service needs.
206. Any vacancy in the office of mayor is to be filled as soon as possible by election of the voters of the City. At the time of the writing of this charter state law did not permit a special election to fill a vacancy in the office of mayor. It was recommended that the state law be amended to allow special elections to fill vacancies in the executive branch.
207. The deputy mayor should be committed to the policies of the mayor. The controller cannot serve as deputy mayor.
208. To provide flexibility, there is no required structure for the executive branch. With some exceptions, this is left to mayor and council. Changes can be made, as required by the ordinance process, which is relatively simple compared to a change made by charter amendment or act of the General Assembly.
209. In keeping with the strong mayor form, the mayor is empowered to appoint the

chief officer of any major administrative unit. Such an appointment is subject to confirmation by council. The heads of the City's police and fire forces are subject to confirmation if they report directly to the mayor. The mayor's staff is exempt from confirmation.

210. The mayor's power to appoint and remove major administrative unit heads is a traditional provision, long part of the law regulating Pittsburgh's government.
211. Open government is sought with a maximum of information freely available to officials and the public.
213. This charter authorized council, the human relations commission and the controller to retain their own legal counsel. These units have a choice of utilizing the city solicitor or their own counsel for legal assistance. The city solicitor is otherwise charged with the responsibility for legal representation of all units of government and council.
216. The human relations commission is the only commission mandated by this charter. It is an essential unit of government, which has proven its usefulness over a long period of years. Some independence is granted its members by providing for a four year term.
217. The human relations commission hires and controls its own staff.
218. During their four year term, human relations members may be removed only for a serious reason.
219. Authorities exist pursuant to state law. Appointment of their members is controlled by law, unlike boards and commissions which are established pursuant to this charter. Unless state law mandates a different method of appointment, all appointments are to be in accordance with this charter.

The Government Study Commission writing this charter recommended that state law be revised to allow absorption of authorities into city government as soon as feasible. The Commission further urged that future mayors and councils continuously work for the elimination of

independent authorities.

220. By the power of appointment, the mayor has representation on authorities. This section provides council with representation on each authority.
222. The authorities have small boards, and prolonged vacancies can be harmful. In the case of a new authority, board or commission, an unfilled office of a member becomes vacant beginning on the day following the first legal date on which members may be appointed.
223. Magistrates are provided with some independence. It is recommended, but not necessary, that the magistrates be attorneys.
224. The magistrate courts are part of the state judiciary system. They are subject to the rules that govern that system, and should maintain dignity required of other courts in the system.
225. This charter, in sections 806 and 807, provides for an impeachment process by which a magistrate can be removed; or one could be removed in accordance with the Pennsylvania rules of conduct for justices of the peace of the Supreme Court of the Commonwealth.
226. The law governing the organization and jurisdiction of magistrate courts is found in the schedule of the judiciary article of the Constitution of Pennsylvania, article 5, section 21, and in the Pennsylvania rules of conduct for justices of the peace of the Supreme Court.
227. Section 208 allows the mayor and council flexibility in creating and abolishing units of government. It is essential that knowledge of the current units and their functions be accessible to the public. Filing the table of organization will be the responsibility of the mayor or designated representative on behalf of the executive branch.

ARTICLE THREE

301. Council is established as a separate branch of government with important policy making power. It serves the traditional

- check and balance function. The legislative power includes the power to levy taxes and make all appropriations.
302. Council itself has the power to determine whether to remain a body of nine at-large members elected from separate geographic districts. Only these two choices are possible, so that if council were to change itself from an at-large council to a district council, and then repeal the change, it would return to being an at-large council.
 303. Council members are to be personally familiar with the opportunities, needs and problems of the City.
 304. A majority of council members are elected at a different time than the mayor. This allows for effective public expression of approval or disapproval for the policies of city government at two year intervals.
 306. The president of council is an important official in the city government, and is to play a strong leadership role in council.
 307. While discretion is allowed the president as to size of any committee, the appointment of small committees probably provides more visibility and more accountability.
 308. Members of council are to avoid any conflict of interest.
 309. It is possible for a vacancy of as long as 8 months to occur, but this disadvantage is more than offset by the encouragement to council members to serve their full terms. In the past it had been a practice for retiring council members to resign their position so some favored candidate could be given the advantage of incumbency by appointment to the vacancy. This section is subject to the exception in Section 813.
 310. Council is given broad powers. Council is authorized to employ a professional staff. Such a staff is essential to the council performing its duties properly. Council is authorized to have its own legal counsel. Such counsel cannot act on behalf of the City as a corporation since that power belongs only to the city solicitor. To have two attorneys empowered to represent the City as a corporation could lead to legal chaos.
 - Council is given sufficient powers to perform both a leadership role and a check and balance role in city government.
 311. Council may remove city officers, but only for serious cause.
 312. Council is expected to conduct frequent and careful investigations of the City's problems, needs, and opportunities so as to be well prepared at all times to assist effectively in making wise and progressive policy.
 313. & Council is expected to keep the public well informed of its activities.
 314. well informed of its activities.
 315. The City's business requires frequent council meetings without long intervals between meetings. Members are expected to stagger their vacations so that a quorum will be present at all meetings.
 316. Council performs its principal policy making power through legislation. Ordinances and resolutions are distinguished since they have different purposes and requirements. Only members of council can introduce legislation.
 317. Each proposed act of council is to be in writing and clearly focus on one question. This prevents legislation from containing unrelated matters, and helps to ensure that the subject of an ordinance is known from its title.
 318. The public is to be given reasonable opportunity to be aware of the legislative activities of council. To waive the seven day rule, council must have a serious reason. It would be useful for council to mail agendas of its meetings in advance to all who might ask for such notice, perhaps with a modest charge for the service.
 319. The public is to be provided published notice and and hearing on proposed legislation concerning certain very important policy questions listed in this section.

320. Citizens are mandated a public hearing provided a petition is presented with at least 25 signatures. The subject matter of a hearing can be proposed legislation, or any appropriate matter of concern to citizens.

Council has traditionally followed the practice of granting a hearing to any citizen or group of citizens who make a reasonable request in writing. It is hoped this tradition will continue, and that the provisions of this section will not have to be applied formally. But the guarantee is set forth, if ever needed to protect citizens.

321. The mayor is granted veto power over legislation, and a veto may be overridden only by six or more votes of a nine member council. The mayor is given a line-item veto over the budgets which means the mayor may veto parts of a budget while approving and signing other parts. These powers help provide for a "strong mayor."
322. Normally, legislation becomes effective when the public has been provided notice by advertisement. Council is given some flexibility for unusual situations.
323. All legislation is to be recorded in writing in a place accessible to the public.
324. Over the years numerous ordinances of council have been accumulated. These are to be sorted out to determine those still useful to the City. Those determined useful are to be codified in a form which is indexed and readily accessible to all. This newly organized city code is to be kept up-to-date as new ordinances are enacted.
325. The city code and its supplements are to be published and made available to the public. Council may charge a reasonable fee. This charge is to be available to citizens without charge. The recommended council publish the charter with a detailed table of contents and index.

ARTICLE FOUR

401. An elected controller is mandated to ensure an independent check on the use of city resources.

404. The controller is given broad powers to perform his role as independent monitor of the executive and legislative branches. This includes mandatory, periodic performance audits which are a determination as to whether city resources have been efficiently and effectively used in achieving intended accomplishments, as stated in the budgets. Traditionally, the controller has recognized and responded to citizen complaints and nothing in this charter prevents a controller from continuing this practice.

In addition to an authority, the term "agencies" includes any organization such as library, arts, festival, symphony orchestra, non-profit development corporation, and the like which receive city funds.

405. These additional powers and requirements provide further protections for the
409. safeguarding of public resources.
410. Continuity of operation and policy is provided by a deputy controller.
411. The independence of the controller is further protected by the office having its own solicitor.

ARTICLE FIVE

501. Council is given power to change the fiscal year, Council may reexamine this question periodically in connection with the fiscal years of other governments.
502. Two kinds of budgets are required: an operating budget to provide for salaries, supplies, short-lived equipment and debt amortization; and a capital budget to provide for long-lived equipment and public works.
503. The operating budget is to list in detail proposed expenditures for each agency of city government, and to state the specific activities to be carried out by these proposed expenditures. Such activities might include number of miles of streets to be swept weekly, number of fire prevention inspections to be made, miles to be patrolled by police, number of playgrounds to be in use, abandoned buildings to be demolished, and the like.

504. As a basic power to provide for a strong mayor form or government, initiation of the budget is assigned to the executive branch, in order for all city officials and officers, and citizens of the city, to have access to the budget making process, an executive public hearing is required while the budgets are in preparation.
505. Council is to have six to seven weeks for legislative hearings and consideration of the budgets. This is two to three weeks more time than was provided prior to the enactment of this charter.
507. Council has five weeks from the beginning of a fiscal year to make corrections to the operating budget. After that time a reopening should be only for an emergency, and requires the approval of the mayor.
508. A six-year capital program is the plan of the City to receive and expend funds for capital improvement projects during the six ensuing fiscal years.
509. The City may join with the county or other levels of government for tax collection purposes where it would be to the advantage of the City.
510. Council approves contracts, but only the mayor can negotiate and execute a contract. This is consistent with strong mayor government.
511. Some flexibility is allowed in contract making. This section recognizes the City's right to contract with other governments. This might be useful in such areas as contracting with the county for modern record keeping services.
513. Ratification of contracts, after the fact, is provided for under certain, carefully prescribed circumstances. This procedure is to be utilized only when absolutely necessary.
514. This section intends to provide a way that responsible contractors, discriminated against by bonding companies, may be able to bid for city contracts on an equal basis with other contractors.

ARTICLE SIX

601. The Mayor, after study, is to recommend boundaries for the advisory board districts. The criteria are to include history and geography. This means consideration of any former municipal boundaries once possessed by areas now part of the City, boundaries of neighborhood organizations, topography, and research on neighborhood boundaries done by private and public groups currently and in the past. It is expected the mayor would consult public opinion before making recommendations. There is no minimum size for a district as long as it includes contiguous whole voting districts, but it may be useful if the districts are of a shape (pattern, configuration) and size to facilitate the delivery of public services. No traditional neighborhoods should be split in drawing district lines.
602. Neighborhoods demonstrating a strong desire to do so may establish a community board. The purpose is to improve citizen communication with the government of the City, and to provide immediate access when necessary for citizens.
603. Existing voluntary neighborhood organizations are to have representation on any board for the neighborhood. Council is to provide criteria for determining which organizations in a neighborhood are eligible. It is expected the criteria might include, but not be limited to, purposes, size of membership, age of the organization, openness of its membership, age of the organization, openness of its membership policy, and level of program activity.
604. The community boards open elected governmental service to many citizens who never before have had the opportunity to serve.
605. The community boards begin with only advisory powers. As they demonstrate usefulness and responsibility, the mayor and council may take action to grant them other powers and duties.

The board from each organized district is to have the opportunity to discuss its problems, opportunities, and needs directly.

tly with the mayor. However, the mayor may fulfill this requirement for several boards at a single meeting.

It is expected that any time council is considering legislation which would have impact on a community advisory board district, that the view of the board district, that the views of the board would be sought, given publicity, and due consideration by council.

606. While it does not exercise direct control over individual boards, council does set general guidelines for all boards.

607. Council and mayor cannot grant city tax funds to any board. The boards are encouraged to raise funds from within their own neighborhood, form foundations, and other sources.

608. Voters of a neighborhood can petition for changes in the structure or procedures under which their board operates. It is expected council would hold a public hearing on such a request to help determine whether the changes should be made.

609. The community advisory board has a relationship to council somewhat similar to the relationship of the municipality to the General Assembly. It is expected that council will contribute to the development and stability of advisory boards as the General Assembly over time has supported the development and stability of municipalities.

ARTICLE SEVEN

701. A system of personnel based on merit and qualification of the employee is mandated.

While the system is to be as uniform as possible, it is expected that certain classifications of employees will be necessary for the order and organization of the system.

702. An independent appeals board is established to hear employee appeals to the decisions of major administrative unit heads and other officers and officials.

703. Council is not prohibited from legislating on retirement age, and the City is not prohibited from hiring persons under 18 where such employment is proper and appropriate.

704. Aggressive recruitment to insure a more effective open employment system is mandated. This might include such activities as advertising for applicants in neighborhood, ethnic and minority newspapers, recruiters speaking at all types of organization meetings in all parts of the City, bringing seniors from all high schools in the City to the City's offices to be told first-hand about employment opportunities and the like. "Minority group" means any group in the City that is not a majority of the population.

705. "Campaigning" or being "a candidate" begins on the first day a person takes out a nominating petition for public office, and ends either on primary election day in the case where the candidate loses the primary, or on election day. A party office is not a public office.

706. Any person paid for work by the City is not to receive any other compensation for this work. This is an anti-corruption provision and provides a stiff penalty for violators.

707. Persons paid by the City may not hold other paid governmental employment with certain exceptions. For many years the controller and treasurer have served the City school district in like capacities as a matter of convenience and efficiency to both governments.

708. Police officials in certain high ranks are considered to be administrative officials with their rank not protected by the personnel system. In case of removal from the high rank for an administrative reason, such officers shall return to the highest protected rank held, and not be forced to start over again at the lowest rank. This enables the administration to promote able officers without their having to give up their job protection.

ARTICLE EIGHT

801. Elected officials are required to make a

- full disclosure of all interests. This is done to reveal any conflicts with the interests of the City.
802. This section seeks to help free office holders from control by large campaign contributors. It seeks also to help equalize the opportunity to win public office for candidates without access to large funds. It is intended that the preliminary reports become campaign issues.
805. Throughout this charter are set forth various requirements and prohibitions. Council is directed to set penalties for violations of these, where the charter does not already set a penalty.
806. The impeachment provisions adopt, for the most part, long existing statutory provisions (53 P.S. 22331, et. seq.). Concealment of a fraud is within the definition of "neglect of duty." Suspension may occur while charges are pending in accordance with the traditional procedure set forth by statute, (53 P.S. 22334)
807. A major difference in impeachment proceedings, compared to other removal provisions of this charter, is that citizens initiate the action.
808. Included among those who can issue subpoenas are the mayor, council, the controller, and the human relations commission, subject to ultimate review by the courts.
809. This section seeks to assure that idle and excess city supplies, equipment and other property is put to use or sold, and that loss and theft are minimized. The annual inventory shall be the responsibility of the mayor or designated representative on behalf of the executive branch.
810. The public's 'right to know' is recognized and acknowledged.
811. If any section of this charter is found to be illegal or unconstitutional, it becomes null and void, but does not affect the legality of other sections of the charter, and they remain in force.
812. All ordinances, resolutions, and laws not applicable to all municipalities in the state, which might be in conflict with this charter, are overridden, and superseded. All others remain in force.

813. This charter is effective January 5, 1976, with certain exceptions. Five council members shall be elected at the 1975 municipal election under the terms of this charter.

To implement this charter, capital and operating budgets for the 1976 fiscal year shall be prepared and enacted during 1975.

HOME RULE MINORITY REPORTS

I am compelled by my conscience not to support the final version of the Pittsburgh Home Rule Charter. There is in my mind a firm conviction that the majority of witnesses who testified before us at the hearings was ignored to satisfy a favored few.

Council elected at large is perhaps the most glaring example of this. At our hearings in the communities, 43 people speaking as private citizens and representatives of city wide and neighborhood organizations approved the proposed election of nine council members by district and two members elected at large. Thirteen approved district elections were against the proposed nine and two. Twenty seven witnesses recommended a city council elected at large. Some of the twenty seven changed their minds at a later hearing and advocated elections by districts.

My final word on city council in reference to newspaper reports that I advocated mandated Black council people is that the recorded tapes of our meetings will prove that this is not true. Black people have proven many times in the areas of education, science, business, sports, and entertainment that given a fair chance, they will win. While I do not favor a mandate for Black council members, I most urgently recommend that minority party candidates, independent Democrats, and people in poor neighborhoods, be given a much better chance of being elected to public office, than they are given now. The new Charter has done nothing to help the people in these categories.

My second concern is that the Study Commission has not mandated one department. Other Study Commissions throughout the state and the country have mandated many departments in their Charters.

This Pittsburgh Study Commission deleted a department of Economic Development and a department of Job Development that they

have approved earlier. This power, to establish there two departments, was given to the Mayor and City Council despite the fact that not any Mayor or City Council had shown any interest in doing this in previous years. Also, the waiver of performance bond provision was weakened so badly that it would be best left out of the Charter entirely.

The original provision read — Council by Resolution may waive any Performance Bond ordinarily required of a contractor provided that:

- A. The contractor is responsible and a member of a class of persons which by reason of social or economic factors is unable to obtain a Performance Bond at prevailing premium rates.

Upon award of the contract, the contractor shall pay to the City an amount equal to the prevailing premium rates and the payment deposited in the general revenue fund of the City.

Commentary: This section seeks to provide an equal opportunity for small business people; especially new ones, with little capital, to bid on City contracts — but, no more than an equal opportunity.

The final version of this article reads: Council, by ordinance, may establish standards for the waiver of any performance bond required of a contractor provided that the contractor is responsible and pays to the City upon award of the contract an amount equal to the prevailing premium rates. All payments shall be deposited in the general fund of the City.

I question the way the Community Advisory Board was written into the Charter. As part of a package, they did not receive the six majority votes required by Act 62.

At the very next meeting a similar package was ruled out of order.

I am submitting this report as a minority report in an honest effort to discharge my duties as a member of this commission. For the reason I have stated, I can not support the proposed final version of this Charter as it now reads.

Arthur C. Holloway, Commission Member

My first concern is the concept of Community Advisory Boards. This concept was put into the charter illegally, perhaps not technically illegal, but certainly morally illegal and contrary to the spirit of the law.

This points up the fault in the Study Commission's deliberations. An effort was always made to complicate, use parliamentary maneuvers, doubtful legal concepts and actual devious methods.

The State law that the Commission operates under states, "No recommendation of said Commission shall have any legal effect unless adopted by a majority of the whole number of the members of the Commission." The Community Advisory Boards provision was put into the charter in a devious, illegal way by combining into a package, "Nine Council members elected at large.—the elected at-large council to decide whether Council from then on should be elected from districts." Although totally unrelated to at-large council, the concept of Community Advisory Boards was also added to this package, but had to be voted as a whole. The concept of Community Boards as proposed in the Discussion Draft, was rejected by 57 opposed, 34 in favor and 8 conditionally approved in the public hearings.

Since then, the Boards have been weakened to being advisory only and being elected on a voluntary basis. If this new concept were presented to the public, the opposition would be even greater.

My second concern would be district elected council. In the Discussion Draft, the Commission voted 7 to 3 for nine district and two at-large council members and in public hearings — the tally was 44 in favor, 27 opposed and 13 conditionally approved the nine districts and two at-large council. At this point however, the party leaders and special interest people must have realized they had inadvertently created a monster in allowing the Study Commission to exercise such independent thought.

The charter as a whole got progressively worse as far as the people's interests were concerned from then on.

District elected council was the one important change in City government, but this would fragment party control, and make it difficult for special interest groups to influence City government. Without district elected council, home rule will be meaningless. For example: Imagine our Study Commission which was elected at-large as members of a future City council, then it would be likely to enact new local laws that were favorable to party loyalty or special interest people and certainly not in the interest of the people.

A later development of the Commission saw the need to add certain public relation gimmicks to offset the criticism of many con-

cerned citizens who became alarmed at the loss of the intent of the home rule charter.

In good conscience, I cannot support the City charter unless consideration is given to the election of City council by districts.

Robert E. Kennedy, Commission Secretary

RECOMMENDATIONS

During its more than 16 months of work, the Pittsburgh Government Study Commission discovered some problems which could not be solved by the new charter, since the Commission was limited by state law from treating matters such as election laws and abolition of authorities. Some of the unresolved matters are of sufficient importance for the Commission to offer the recommendations which

Recommendations to the General Assembly:

Authorities

Municipalities should be empowered to absorb authorities.

Consideration should be given to merging the city and county housing authorities.

Elections

Municipalities should be empowered to impose limits on campaign expenses of candidates running for city office.

Every election should be available, without limitation for filling a vacancy in any municipal election.

Recommendation to Pittsburgh Mayors and Councils:

Mayors and Councils, present and future, should continuously seek to absorb authorities into city government.

FINANCIAL REPORT

The following financial report is a summary of the actual expenses incurred and in-kind contributions utilized by the Government Study Commission of the City of Pittsburgh during the period extending from November, 1972 thru April 18, 1974. The cost of the printing and mailing of the final report is not included because the exact costs were not known at the time this report went to press.

The Commission's operating funds, provided by the City of Pittsburgh, amounted to \$126,000.00. The Commission has spent \$85,223.78 thru April 18, 1974. Additional

operating expenses to be incurred prior to the discharge of the Commission in May, 1974 are estimated at approximately \$6,400.00. Costs of printing and mailing the final report to all voters will be approximately \$21,600. This means that approximately \$113,000 of the \$126,000 in appropriated funds will be spent, leaving a surplus of approximately \$13,000 to be returned to the general fund of the City.

After a defeat at the hands of the Coal Operators he uttered the words that epitomize his spirit and character: "The blade of my sword is broken but I will fight with the hilt in my hand because our cause is just and we must win in the end." After that defeat the United Mine Workers went on to become one of the greatest unions in the country.
